Welcome to the Lyell Collection

The Lyell Collection is an online collection comprising the Geological Society's journal titles, Special Publications and key book series. Cutting-edge science sits alongside important historical material, benefiting from the extensive functionality of the platform.

With more than 310,000 peer-reviewed pages, 31,000 articles and 1,000 volumes, the Lyell Collection is an invaluable tool for researcher and student alike.

About the Geological Society

The Geological Society of London was founded in 1807 and is the UK national society for geosciences with over 12,000 members. It is a global leader in Earth science publishing, dedicated to providing a high-quality service throughout the world.

Find out more information about the Lyell Collection: www.geolsoc.org.uk/lcaccess

Journal of the Geological Society

Editor-in-Chief: Yildirim Dilek, Miami University, USA

The Geological Society of London's flagship journal and one of the key titles for researchers in the geosciences, *JGS*, publishes topical, innovative and interdisciplinary research with global reach across the full range of Earth and planetary sciences. Regional geological

studies of interest to our international readership are also welcomed. Each year the Editorial Board presents a 'JGS Early Career Award' to the first author of an outstanding paper who is within three years of earning their PhD or relevant postgraduate degree. The journal features research, review, perspective and discussion articles. Review focus articles detail recent research in established or emerging areas of interest. Recent highlights include 'Earth's earliest forest' and 'Glacially influenced provenance and Sturtian affinity revealed by detrital zircon U–Pb ages from sandstones in the Port Askaig Formation, Dalradian Supergroup'.

6 issues per year

Online
The journal regularly provides over 230,000 full text downloads each year
Published continuously online
Impact Factor: 2.6
5-year Impact Factor: 2.8

Type of content:

- research articles
- reviews and perspective articles
- discussion papers
- review focus series
- thematic collections

Abstracted and indexed in: Geobase, Geological Abstracts, GeoRef, Mineralogical Abstracts, Petroleum Abstracts, Scopus and Clarivate's Web of Science 'Science Citation Index'

Quarterly Journal of Engineering Geology and Hydrogeology

Editor-in-Chief: Prof Cherith Moses, Edge Hill University, UK

QJEGH fosters engineering geology research and practice. International in scope, its focus is on geology as applied to civil and environmental engineering and groundwater resource management. Publishing high-quality, authoritative, peer

reviewed, international papers, addressing sustainability, climate change, energy transition, geohazards and geo-resilience, to inform academic and industry practitioners in engineering geology and hydrogeology.

'The William Dearman Early Career Award' is annually presented for the best *QJEGH* paper from an author in the early stages of their career.

Petroleum Geoscience

Editor-in-Chief: Jonathan Redfern, University of Manchester, UK

Published by GSL Publishing House on behalf of the Geological Society of London and the European Association of Geoscientists and Engineers (EAGE).

Petroleum Geoscience transcends disciplinary boundaries and publishes a balanced mix of articles that drives the science to enhance

sustainable development covering all aspects of the petroleum system. The journal content reflects the international nature of the research. *PG* welcomes a range of papers on themes that include: exploration, exploitation, appraisal, development and monitoring of sub-surface hydrocarbon resources; enhancing exploration efficiency, lowering technological and environmental risk, and improving hydrocarbon recovery; and transferable knowledge and integration of disciplines in an applied context. A recent highlight includes 'The impact of igneous intrusions on sedimentary host rocks: insights from field outcrop and subsurface data'.

Geochemistry: Exploration, Environment, Analysis

Incoming Editor-in-Chief: Matthew Leybourne, Queen's University, Canada

Published by GSL Publishing House on behalf of the Geological Society of London and the Association of Applied Geochemists (AAG).

GEEA welcomes papers that focus on the use of geochemistry in mineral exploration

and resource development, the application of geochemistry to environmental issues related to mining and mineral processing, and the development of methods and techniques to geochemically analyze rocks, soils, sediments, waters, and vegetation. A recent highlight 'Practical applications of quality assurance and quality control in mineral exploration, resource estimation and mining programmes: a review of recommended international practices'.

Geoenergy

Editor-in-Chief: Sebastian Geiger, Delft University of Technology, Netherlands

Published by GSL Publishing House on behalf of the Geological Society of London and the European Association of Geoscientists and Engineers (EAGE).

Continuing the mission of its sibling journal, *Petroleum Geoscience*, *Geoenergy* focuses on the publication

of timely and topical research in subsurface geoscience, critical for this new era of sustainable energy. Recent highlights include 'Review of Triassic Sherwood Sandstone Group reservoirs of Ireland and Great Britain and their future role in geoenergy applications' and 'One-dimensional modelling of air injection into abandoned oil fields for heat generation'.

Proceedings of the Yorkshire Geological Society

Regional geology – global impact

Editor-in-Chief: Paul Wignall, University of Leeds, UK

Published on behalf of the Yorkshire Geological Society.

PYGS is one of the UK's oldest journals, publishing without a break since 1893.

The journal aims to make local observations,

records and datasets available to inform understanding of geological processes and history more widely, both within and across disciplines. Emphasis is on publication of research and reviews relating to northern and eastern England and its offshore area, but not exclusively. A recent highlight includes 'A new ankylosaurian osteoderm from the Middle Jurassic Oxford Clay Formation, United Kingdom'.

Scottish Journal of Geology

Editor-in-Chief: Heather Stewart, Kelpie Geoscience Limited, UK

Joint publication of the Geological Society of Glasgow and the Edinburgh Geological Society.

SJG publishes papers on all aspects of the geology of Scotland and its adjacent areas, including the North Sea and North Atlantic margins. The geology of Scotland

is an important natural laboratory for all branches of Earth science; many studies in geology have been carried out in Scotland and *SJG* provides a forum for their publication.

Recent highlights include 'Otoliths from the Lealt Shale Formation, Great Estuarine Group, Middle Jurassic (Bathonian), Inner Hebrides, Scotland'.

Journal of Micropalaeontology

JM is well established as an international publication covering all aspects of microfossils and their application both in applied studies and basic research. Volumes 1–36, covering content published between 1982 and 2017, are included with a Lyell Collection Complete subscription.

Earth Science, Systems and Society

Editor-in-Chief: Kathryn Goodenough, British Geological Survey, UK

ES³ is a fully gold Open Access journal. The journal has a special focus on cross-disciplinary research that showcases the relevance of geoscience to sustainability in society.

Transactions of the Geological Society

Published between 1811 and 1845, the *Transactions* captured the most significant geological communications of the period, including William Buckland describing Mary Anning's fossils, Charles Darwin writing about his voyage on the *Beagle* and contributions by Sir Roderick Murchison.

Transactions of the Edinburgh Geological Society

Published in 19 volumes between 1868 and 1963, the *Transactions* contain over 800 articles devoted to Scottish geology and cover the key themes of the time.

Transactions of the Geological Society of Glasgow

Published between 1860 and 1963, the *Transactions* include papers by Croll, Geikie, Gregory, Holmes, Lapworth, McCallien, Thomson (later Lord Kelvin), Tyrrell, Richey and others, whose seminal works provided important geological ideas.

Geoenergy

**Editor-in-Chief: Sebastian Geiger,
Delft University of Technology, Netherlands**

Geoenergy is a new co-owned journal of the Geological Society and the European Association of Geoscientists and Engineers (EAGE). Geoenergy focuses on the publication of timely and topical research in subsurface geoscience, critical for this new era of sustainable energy.

The journal publishes articles on the following themes

- Energy storage: thermal energy storage, compressed air energy storage and hydroelectric storage
- Subsurface disposal and storage: carbon capture and storage, bioenergy with carbon capture and storage, radioactive waste storage
- Geothermal energy: exploration, characterization and modelling of geothermal fields
- Hydrogen energy: exploration, production and storage of hydrogen
- Critical minerals and raw materials: minerals for the energy transition
- Sustainability: surveillance and long-term assurance for management of subsurface resources

Special Publications

Special Publications are renowned for their high quality of science and production. Each volume focuses on a specific theme and represents a balanced, state-of-the-art treatment of the subject matter. The Society publishes multiple volumes each year and articles from each volume are available online before the hardcopy appears in print.

Engineering Geology Special Publications

This successful series is devoted to a wide range of engineering geology and geotechnical topics: each volume provides balanced coverage of its subject. The latest volume to join the series is *Geological Hazards in the UK: Their Occurrence, Monitoring and Mitigation*.

New Engineering Geology Package

Containing content from both the *Quarterly Journal of Engineering Geology and Hydrogeology* (QJEGH) and the highly regarded *Engineering Geology Special Publications* (EGSP). The package contains 3,000 fully searchable book chapters and journal articles in one easy to navigate package. Providing a clear and complete synthesis of engineering geoscience disciplines.

Review of Engineering Geology Special Publication

"In my view any geologist, engineering geologist or geotechnical specialist who is engaged in practical fieldwork, or the commissioning and interpretation of site investigation reports, ought to be making arrangements to place a copy of this book at their elbow." – Part of a review published in *Geoscientist* magazine, vol 28, no. 4.

Bringing together the strengths of both publications to unravel real-world engineering geology problems

Memoirs

Memoirs are definitive treatments of their subjects by acknowledged experts. They may be edited collections of papers, or can be written by a single group of authors. New titles coming soon include *The Emergence of Geophysics: A Journey into the Twentieth Century* and *Sedimentary Successions of the Arctic Region and their Hydrocarbon Prospectivity*.

Energy Geoscience Conference series – new book series

The Energy Geoscience Conference series succeeds the former Petroleum Geology Conference series and comprises a sequence of edited and peer-reviewed volumes arising from the conferences. Oriented towards the energy transition, volumes will explore understanding, technologies, lessons learned and subsurface insights across the full sphere of energy geoscience. Articles in the first volume will be published as they become available www.lyellcollection.org/book/egc

Petroleum Geology Conference Series

The fully edited and peer-reviewed Proceedings of the 4th, 5th, 6th, 7th and 8th conferences in this prestigious series are hosted on the Lyell Collection.

GeoHorizons

GeoHorizons is a new book series published jointly by the American Geophysical Union (AGU) and the Geological Society. The series focus is on solution-based science that addresses the many challenges facing humanity and the environment, especially those related to climate change and sustainable development.

Geological Society of London Special Publications – Online Archive

Special Publications are renowned for their high quality of science and production. Each volume focuses on a specific theme and represents a balanced, state-of-the-art treatment of the subject matter.

Purchase Special Publication archives of volumes 1 to 500 as six separate Archives or three sets. All options are outright purchases for a one-off fee allowing perpetual access.

Download a list of the Special Publication titles in the various archives from www.geolsoc.org.uk/lcaccess##SParchive

MARC/KBART files can be downloaded from www.geolsoc.org.uk/lcaccess. MARC records and KBART files are also added to the WorldCat® Knowledge Base each month to ensure the latest content selections are available to aid discoverability.

All Special Publication volumes are available online on payment of an annual subscription fee (for the Special Publications alone, or as part of Lyell Collection Complete).

The 500 volumes are available in six separate archives

	SP Volumes	Number of articles	Number of pages	UK end users (+ VAT)	Europe & Rest of World end users
SP Archive 1	1 - 100	2,520	41,700	£7,688	£7,688 / US\$15,376
SP Archive 2	101 - 200	2,020	37,000	£7,688	£7,688 / US\$15,376
SP Archive 3	201 - 300	1,900	36,600	£7,688	£7,688 / US\$15,376
SP Archive 4	301 - 400	1,750	36,600	£7,688	£7,688 / US\$15,376
SP Archive 401-450	401 - 450	836	17,600	£3,844	£3,844 / US\$7,688
SP Archive 451-500 NEW	451 - 500	877	18,900	£3,844	£3,844 / US\$7,688

Volumes 1 to 500 are available as 300, 400 or 500 volume sets:

	SP Volumes	Number of articles	Number of pages	UK end users (+VAT)	Europe & Rest of World end users
SP Archive 300	1 - 300	6,440	115,300	£19,225	£19,225 / US\$ 38,450
SP Archive 400	1 - 400	8,190	151,900	£24,032	£ 24,032 / US\$ 48,064
SP Archive 500 NEW	1 - 500	9,903	188,400	£30,042	£ 30,042 / US\$ 60,084

*Plus VAT rate as applicable at the time of invoicing. **UK end users:** VAT is 0% on online archives. **European Union end users:** European Union tax is not invoiced to VAT registered subscribers/end users

Key Facts

The archives are hosted on the Geological Society's Lyell Collection, there is no annual maintenance charge. Content is preserved in CLOCKSS. These Archive rates are for single site access and apply to the geographical location of the end user.

How to purchase an Online Archive

Please contact us directly at sales@geolsoc.org.uk or your regional agent will be happy to help, their details are listed on page 2.

Geological Society publications online

The Lyell Collection

The Geological Society Special Publications
Online Archive – a journey through geological time

Journal of the Geological Society (JGS) publishes topical, high-quality recent research across the full range of Earth sciences. Papers are interdisciplinary in nature and emphasize the development of an understanding of fundamental geological processes. The journal includes broad interest articles that refer to regional studies, but which extend beyond their geographical context.

The JGS Archive (1845-2007) includes over 17,000 articles and comprises over 150 years of geoscience research, including historically important content from many eminent scientists. Access the very earliest geological research from the greats such as Darwin, Murchison and Buckland to modern, cutting-edge research from an international field of authors. *The Quarterly Journal of the Geological Society* (1845 to 1970) was re-named the *Journal of the Geological Society* in 1971.

All JGS volumes are available online on payment of an annual subscription fee (for *Journal of the Geological Society* alone, or as part of *Lyell Collection Complete*).

JGS Archive 1845-2007 is available as one archive purchase. Smaller archives have been created Parts 1,2,3 and Part 4 which spans 2008 – 2012.

	Years of content	UK end users	European Union and RoW end users
JGS Archive 1845-2007	1845 - 2007	£ 19,968	£ 19,968 / US\$39,936
JGS Archive part 1: 100 Years of Geology	1845 - 1945	£ 6,884	£ 6,884 / US\$13,768
JGS Archive part 2	1946 - 1986	£ 6,884	£ 6,884 / US\$13,768
JGS Archive part 3	1987 - 2007	£10,328	£10,328 / US\$ 20,656
JGS Archive 2008-2012	2008 - 2012	£ 4,045	£ 4,045 / US\$ 8,090

*Plus VAT rate as applicable at the time of invoicing. **UK end users:** VAT is 0% on online archives. **European Union end users:** European Union tax is not invoiced to VAT registered subscribers/end users

Key Facts

The JGS archives are hosted on the Geological Society's Lyell Collection, and are not available for local hosting. There is no annual maintenance charge. Content is preserved in CLOCKSS. These Archive rates are for single site access and apply to the geographical location of the end user.

How to purchase an Online Archive

Please contact us directly at sales@geolsoc.org.uk or your regional agent will be happy to help, their details are listed on page 2.

Highlights from the Journal of the Geological Society Online Archive

Part 1: 100 years of Geoscience 1845-1945

The Structure and Distribution of Coral Reefs ; being the first Part of the Geology of the Voyage of the Beagle under the Command of Capt. Fitzroy, R.N. during the Years 1832 to 1836

Part 2: 1946-1986

Ordovician and Silurian changes in sea level

Part 3: 1987-2007

The emergence of life from iron monosulphide bubbles at a submarine hydrothermal redox and pH front

Description and analysis of bioturbation and ichnofabric

Earth geography from 500 to 400 million years ago: a faunal and palaeomagnetic review

Vendobionta and Psammocorallia: lost constructions of Precambrian evolution

Phosphatization of soft-tissue in experiments and fossils

Features of the Lyell Collection

www.lyellcollection.org

Accessibility

The Geological Society aims to ensure as many people as possible are able to use the Lyell collection. Users should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard and screen readers
- navigate most of the website using speech recognition software
- listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver).

Our technology partner supports accessibility as defined in the Web Content Accessibility Guidelines (WCAG) and Section 508 of the Rehabilitation Act of 1973. The Geological Society of London continuously audits its publisher-produced pages for conformance to the latest WCAG 2.2 guidelines. Our latest VPAT and further information and be found at www.lyellcollection.org/info/accessibility.

Digital Preservation

Lyell Collection content is preserved for the future in the CLOCKSS Archive

Shared Electronic Resource Understanding (SERU)

GSL does not require the agreement of a formal licence for institutional access to the Lyell Collection. GSL adheres to the SERU guidelines www.niso.org/workrooms/seru

Open Access Publishing

We offer Open Access Read and Publish agreements to institutions and consortia worldwide. Agreements offer read access to 18 journal and book sites (including all current and archived content) and unlimited open access publishing in 7 hybrid journals, one fully Open Access journal (ES³), one fully Open Access book series (GeoHorizons) and 4 hybrid book series.

In 2025 the fully open access journal ES³ joins the Lyell collection Read and Publish agreements but also offers the opportunity for authors at non-participating institutions to publish Open Access through payment of the Article Processing Charge.

Subscription Activation

New subscribers will be provided with access activation instructions. Access does not have to be re-activated for each subscription year.

Developing Countries

We continue to offer free online access to approved institutions and NGOs in lower income countries through Research4Life. Research4Life provides online access to academic and professional peer-reviewed content. With aims to improve teaching, research and policy-making in health, agriculture and the environment. www.research4life.org/access

Discovery Tools

Library Discovery Services

GSL has partnered with EBSCO Discovery Services, Primo and Summon.

MARC records and KBART data added to WorldCat®

MARC records and KBART files are now added to the WorldCat® knowledge base each month to ensure the latest content selections are available to aid discoverability. MARC records and KBART data are also at www.geolsoc.org.uk/lcaccess

Supplementary Data

Supplementary Data for content in the Lyell Collection is free to view at the GSL Figshare portal <https://geolsoc.figshare.com>

Metrics

All GSL journals have journal impact factors in addition to article-level metrics and usage data on individual articles available through the Lyell Collection. SNIP (Source Normalised Impact per Paper) measures the journal's contextual citation impact and the SJR (SCImago Journal Rank) measures the average scientific prestige of a journal article.

GSL is a signatory of the San Francisco Declaration on Research Assessment (DORA; <https://sfedora.org>) and promotes article-level metrics and usage data on individual articles at www.lyellcollection.org/publishing-hub/metrics

Where are GSL publications indexed?

All journal and book series in the Lyell Collection are indexed in Elsevier's Scopus, Google Scholar and GeoRef. All journals are in Clarivate's Web of Science 'Science Citation Index' and Special Publications, Memoirs, EGSPs and TMS series are in Web of Science 'Book Citation Index' or the 'Conference Proceedings Citation Index'.

Campus Activated Subscriber Access CASA

Campus Activated Subscriber Access (CASA) Our online hosting service, Atypon's Literatum supports federated access via Shibboleth and Open Athens, as well as Google CASA, so that users can access content off-site. Atypon CONNECT makes it even easier for users to access their institutional subscriptions by enabling them to link their profile with their institution.

Usage Statistics

Usage Statistics for all journals published by the Geological Society are available from the Atypon admin account and Atypon Insights. Once you have logged in, click your profile, go to the institutional area and select 'Usage Reports'.

Administrators can:

- Generate COUNTER 5 usage reports.
- Establish CUSHI feeds.

What is SUSHI?

Using the Standardized Usage Statistics Harvesting Initiative (SUSHI) protocol, journal COUNTER reports are available.

JUSP for the UK HE and FE sector

The Journals Usage Statistics Portal (JUSP) provides a single gateway to access usage statistics. For more information go to <https://jusp.jisc.ac.uk>

Open Athens

Customers may be able to sign up for our Open Athens option, contact sales@geolsoc.org.uk to enquire.

Features of the Lyell Collection continued, Geoscientist magazine and ES³

Continuous Publication

The Geological Society has moved to a continuous publication model for all journal and book series.

Under the continuous publication model, as soon as an article is ready to be published, it will be immediately assigned to an issue or volume online rather than waiting for other articles in the issue or volume to be completed, resulting in faster access to the final version of the article.

The Lyell Collection Complete Online Read and Publish Agreement

Includes 18 read sites which comprises 7 actively publishing hybrid journals, one fully Open Access journal (ES³), one fully Open Access book series (GeoHorizons), 4 active hybrid book series (Special Publications, Engineering Geology Special Publications, Memoirs, and the Energy Geoscience Conference Series) and 5 historic content sites. Access to all published content and back files is included in the agreement and perpetual access is granted for content published in the years of the agreement. Authors at institutions who sign up will be able to take advantage of streamlined Open Access publishing where fees have already been included in the agreement with their institution. For more information and a list of current agreements visit www.geolsoc.org.uk/OA. If you have any questions regarding Read and Publish agreements please contact us subs@geolsoc.org.uk

Most Read

Researchers can explore what their peers are reading and citing in the 'most read' and 'most cited' content section.

Thematic Collections

Easily find and seek inspiration for upcoming research projects in our specially curated subject collections and thematic collections. Find out more here www.lyellcollection.org/content/collections

Peer Review

GSL is proud of its rigorous peer-review process which maintains the high quality of articles published.

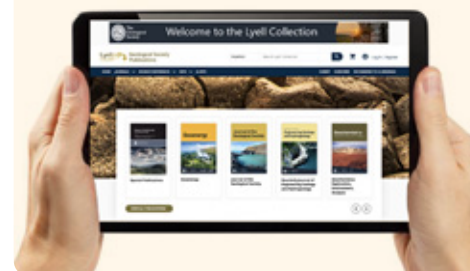

Diversity, Equality and Inclusion

We are firmly committed to improving access and opportunities in the geosciences, and in 2014 signed the Science Council's Declaration on Diversity, Equality and Inclusion. We track our progress yearly through the Progression and Diversity Framework.

GSL signed-up to a joint commitment for action on inclusion and diversity in publishing. Initiated by the Royal Society of Chemistry, full details on the joint commitment can be viewed via the RSC website www.rsc.org/policy-evidence-campaigns/inclusion-diversity/joint-commitment-for-action-inclusion-and-diversity-in-publishing

The Geological Society has partnered with the IP Registry

The Geological Society has signed up to receive daily updates with details of IP address changes via thelPregistry.org. Please follow their guidance on how to update your IPs. Simply register yourself as a user, check your IPs and start using The IP Registry. Updates submitted to the IP Registry by subscribers will be activated in access management within 2 hours of approval by the IP Registry. Please email PSI with any queries admin@thelPregistry.org

Geoscientist Magazine

Executive Editor: Dr Amy Whitchurch, Editor-in-Chief: Prof. Andy Fleet

Geoscientist is the quarterly Fellowship magazine of the Geological Society of London. It features a vibrant mix of science, opinion, news and more, and serves as a resource to the community, with articles that aim to stimulate thinking within and across fields of expertise.

Geoscientist is not part of the Lyell Collection, but can be purchased by non-members as an annual print only subscription.

COMING SOON TO THE LYELL COLLECTION

Earth Science, Systems and Society

Earth Science, Systems and Society

open access

Editor-in-Chief: Kathryn Goodenough, British Geological Survey, UK

Earth Science, Systems and Society (ES³) is a fully gold Open Access journal, owned and published by the Geological Society of London.

Encompassing field, theoretical, experimental and numerical methods, papers are expected to present a significant advance in understanding, great scientific rigour and novelty.

The journal has a special focus on cross-disciplinary research that showcases the relevance of geoscience to sustainability in society.

Find out more at www.geolsoc.org.uk/ES3

* Plus VAT rate as applicable at the time of invoicing. UK end users: VAT is 0% on online and online+print subscriptions. European Union tax is not invoiced to VAT registered subscribers/end users. Prices are for single sites only. Please apply for multi-site and consortia pricing. The Geological Society is a not-for-profit publisher. Savings are compared to subscribing separately to each component in the Lyell Collection. The Geological Society of London is a registered charity, No. 210161. VAT No. GB 877 0147 09. Valid until June 2024. Customers who took advantage of the 2020/2021 price freeze will continue to benefit as the 2023/2024 increase will be added to their 2024 rate. The Geological Society, Burlington House, Piccadilly, London, W1J 0BG, UK

About the Geological Society

The Geological Society of London was founded in 1807 and is the UK national society for geosciences with over 12,000 members. It is a global leader in Earth science publishing, dedicated to providing a high-quality service throughout the world.

The Geological Society of London is a not-for-profit organisation with aims to improve knowledge and understanding of the Earth, to promote Earth science education and awareness, and to promote professional excellence and ethical standards in the work of Earth scientists, for the public good.
